Coordinators: Prof. D. R. Shelar , Prof. P. B. Gurav , Prof. P. G. Bendre

Beneficiary: All Third Year Electrical Student (90)

Visit Details:

The department of Electrical Engg. SETI. organized One day industrial visit at ‘Sar senapati Santaji Ghorpade Sugar Factory, Kapshi Dist-Kolhapur’ Dated at 23th Sept. 2016 for All Third Year Electrical Student (90) . The visit is coordinated by Prof. D. R. Shelar, Prof. P. B. Gurav , Prof. P. G. Bendre. For the course of Power System-II.

For this visit around 90 students were present from our Dept. The resource person Mr. B. A. Patil sir gave us all information about site including 23MW Power generating station (Thermal), Sugar mill, The power gen. station were high efficient and advanced protected. It has zero level pollution limits.

All the component were made by prestigious industry like ABB, L&T in the industry. The industry has many co-product other than sugar and electricity. Industry has its own power substation near industry.

This event is organised for gating on field knowledge about the course Power system, that’s why it will beneficial for students for their carrier development.
